SPECIFICATIONS

ITEM	DETAILS
Motor Type	Powerful Brushless 2212-1050KV
Rudder Angle Speed	Max 150 degree/sec
Angle of Inclination	45 degrees
Length	280mm
Width	280mm
Height	191mm
Diagonal Base	396mm
Flying Weight	840g (Including Battery)
Max Speed	Approx. 30km/h
Max Lift Speed	Aprox. 3.5m/s
Speed Control	15AX Brushless ESC
Battery	11.1V 2700mAh LIPO Battery/Charger
Radio System	2.4GHz 7 - Channel Radio System

SKYVIEW FREE-X QUADCOPTER

Our Free X SkyView is a versatile, very affordable and totally beginners friendly QuadCopter, specially designed to do aerial filming with GoPro 3 cameras. With its brand new design, and State of the art, brand new Flight controller FreeX, SkyView offers an unmatched yet extremely safe and reliable flight performance. The newest SPA built in safety protocol Algorithms of FreeX flight controller will always make sure, that QuadCopter will never show any out of control drift or out of control fly away behavior even if GPS, Magnetometer or compass are damaged. SkyView is a total RTF (ready to fly) right out of box. No need for any complex pre-flight settings, no programming and parameter tweaking needed. Its Ready to fly right out of box after a simple compass calibration and One touch Gyro initialization with supplied USB Dongle. With Optional GoPro 3 high performance light weight gimbal, you are ready to shoot stunning aerial videos using your SkyView Quadcopter in no time at all.

UNIQUE FEATURES

HIGH QUALITY MOTORS

- ▶ High Quality Balanced, Self-Tightening Propellers on Motors.
- ▶ Easy to install and replaces Propellers and Motors.

AUTO-RETURN FUNCTION

- ▶ FREE-X Flight Controller offers very precise and reliable Auto Return to home both on demand and on fail safe.

OPTIONAL CNC GIMBAL

- ▶ Full CNC Aluminum Alloy, Light-weight, two-axis Brushless Gimbal for GoPro 3 Cameras.
- ▶ Easy to Install, Plug and Play.

TREMOR ST AND SG 1/16 SCALE

Each of the Tremors has an electric brushed motor, 2-in-1 ESC/Receiver, and 7.4V 800mAh Li-ion rechargeable battery pack. These RTR Tremors are complete with Li-ion charger.

Aggressive offroad tires and 4WD drivetrain are great for gripping multiple terrains while coil over shocks absorb bumps.

These easy to use 1:16th scale Tremor vehicles can be driven indoors or out. Set up a course in the living room or kick up dirt outside. There are many options with the Tremor series by Redcat Racing.

Two different styles are available, the Tremor ST truck, and the Tremor SG truggy. The truck has slightly larger tires for climbing over obstacles and the truggy's lower profile qualifies it for high speed action.

Grab a Tremor 1:16th scale RC vehicle today and feel the earth shake beneath your feet!

SPECIFICATIONS

ITEM	DETAILS
Motor Type	Powerful Electric Brushed Motor
Transmission	Forward and Reverse
Drive System	4 Wheel Drive
Length	Truggy - 265mm / Truck - 270mm
Width	Truggy - 205mm / Truck - 215mm
Height	Truggy - 110mm / Truck - 135mm
Wheelbase	175mm
Ground Clearance	Approximatly 25mm
Chassis Type	Plastic
Shocks	Spring Coil Shocks
Speed Control	2-in-1 ESC / Receiver Brushed
Battery	7.2V 800mAh Li-ion Battery+Charger
Radio System	2.4GHz Radio System

UNIQUE FEATURES

FRAME AND CHASSIS

- ▶ Powerful 2-in-1 Brushed ESC/Receiver.
- ▶ Huge stance and performance packed in a smaller 1/16 scale

DRIVETRAIN AND MOTOR

- ▶ 4WD drivetrain are great for gripping multiple terrains while coil over shocks absorb bumps.
- ▶ Powerful electric brushed motor.

AGGRESSIVE TIRES

- ▶ Aggressive offroad tires mounted on.
- ▶ Tires Mounted to Great Looking performance Rims.

LIGHTNING EXP DRIFT 1/10 SCALE

Whether you like driving forward or sideways, the Lightning EXP Drift can deliver. Drifting is a style of driving where the line between control and chaos is continually challenged. A

combination of 27T 540 brushed motor and special RC drift tires allow the Lightning EXP Drift to slide effortlessly around corners, while maintaining a steady forward momentum. Shaft driven 4WD helps maintain control while drifting and the light-weight plastic chassis makes recovery easy. A forward and reverse ESC allow the Lightning EXP Drift to back out trouble so the drifting fun can continue. A 2.4GHz radio system provides reliable control for maneuvering multiple corners in a matter of seconds. Aluminum capped oil filled shocks and adjustable independent suspension allow drivers to tune the car to their liking. Ready to run, the Lightning EXP Drift comes complete with rechargeable battery pack and charger. Quit driving inside the lines and use the whole road with the Lightning EXP Drift!

SPECIFICATIONS

ITEM	DETAILS
Motor Type	Powerful Brushed 540 Motor
Transmission	Forward and Reverse
Drive System	4 Wheel Drive
Length	360mm
Width	200mm
Height	112mm
Wheelbase	260mm
Ground Clearance	4.5mm
Chassis Type	Plastic
Shocks	Aluminum Body Oil Filled Shocks
Speed Control	Brushed ESC
Battery	7.2V 1800mAh NiMh Battery+Charger
Radio System	2.4GHz Radio System

UNIQUE FEATURES

FRAME AND CHASSIS

- ▶ Aluminum Capped Oil Filled Shocks and Adjustable Independent Suspension.
- ▶ Shaft Driven 4 - Wheel Drive.

ELECTRONICS AND MOTOR

- ▶ Powerful 27T 540 Brushed Motor.
- ▶ Lightweight Chassis gives advanced performance.
- ▶ 2.4GHz Radio System

DRIFT TIRES

- ▶ Proper tires to give you that fell and performance for drifting.
- ▶ Tires Mounted to Great Looking performance Rims.

BLACKOUT XTE PRO 1/10 SCALE

Are you ready for an adrenaline explosion? Fast and powerful, the Blackout XTE PRO is equipped with a powerful KV3800 brushless electric motor, with heat sink, and forward/reverse

ESC. Ready to run out of the box, the Blackout XTE PRO is eager to heat up the neighborhood. Complete with LIPO battery and charger, this monster truck has everything needed to get started. Shaft driven 4WD provides you with the necessary traction to maneuver the toughest obstacles and the forward/reverse ESC is beneficial in navigating tight spots. Lightweight plastic chassis, four oil filled adjustable coil over shocks, and independent suspension offer rock solid performance as the soft compound monster truck tires leave disaster in their wake.

Fear not!

A 2.4GHz radio system and waterproof electronics ensure control, for those who dare to unleash the power of the Blackout!

SPECIFICATIONS

ITEM	DETAILS
Motor Type	Electric Brushless KV3800
Transmission	Forward and Reverse
Drive System	4 Wheel Drive
Length	440mm
Width	275mm
Height	140mm (Without Body)
Wheelbase	290mm
Ground Clearance	40mm
Chassis Type	Plastic
Shocks	Oil Filled Adjustable Shocks
Speed Control	Waterproof Brushless ESC
Battery	7.4V 3200mAh LIPO & Charger
Radio System	2.4GHz Radio System

UNIQUE FEATURES

SHOCKS, MOTOR & ESC

- ▶ Oil Filled Adjustable Shocks.
- ▶ Electric Brushless KV3800 with shaft driven 4WD.
- ▶ Waterproof Brushless ESC.

WATERPROOF ELECTRONICS

- ▶ LIPO Power right out of the BOX
- ▶ Waterproof Electronics give you the peace of mind in knowing the electronics are safe.

HUGE TIRES

- ▶ Unique Rim Designs to give it that curb appeal.
- ▶ Mud Tires to help you push through and over anything.

BLACKOUT SC PRO 1/10 SCALE

Are you ready for an adrenaline explosion? Fast and powerful, the Blackout SC PRO is equipped with a powerful KV3800 brushless electric motor, with heat sink, and forward/reverse

ESC. Ready to run out of the box, the Blackout SC PRO is eager to heat up the neighborhood. Complete with LIPO battery and charger, this short course truck has everything needed to get started.

Shaft driven 4WD provides you with the necessary traction to maneuver the toughest obstacles and the forward/reverse ESC is beneficial in navigating tight spots.

Lightweight plastic chassis, four oil filled adjustable coil over shocks, and independent suspension offer rock solid performance as the soft compound short course truck tires leave disaster in their wake. Fear not! A 2.4GHz radio system and waterproof electronics ensure control, for those who dare to unleash the power of the Blackout!

- ▶ Mud Tires to help you push through and over anything.

CALDERA XB 10E 1/10 SCALE

Get ready for dune leaping, hill climbing, dirt flying action!

The 4WD Caldera XB 10E brushless buggy is equipped with a powerful brushless motor, 3200mAh LIPO battery, brushless

ESC, and is ready to scream through the woods, track, or yard. Ready to run, the included rechargeable battery and charger are easy to use and provide dependable fun. A durable plastic lightweight lower chassis, coupled with an aluminum upper chassis plate, provide a sturdy foundation for the Caldera XB 10E's power and performance.

Aggressive off road knobby tires, 4WD drive train, and large rear wing provide great traction and looks.

A narrow chassis offers stability, while four big bore oil filled shocks and adjustable independent suspension offer rock solid performance. A 2.4GHz radio system ensures control, for those ready to unleash the MAGMA-tude of the Caldera XB 10E electric brushless buggy!

SPECIFICATIONS

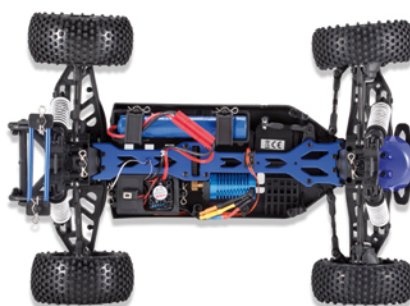

ITEM	DETAILS
Motor Type	Electric Brushless
Transmission	Forward and Reverse
Drive System	4 Wheel Drive
Length	428mm
Width	321mm
Height	150mm
Wheelbase	305mm
Ground Clearance	25mm
Chassis Type	Plastic
Shocks	Oil Filled Big Bore Shocks
Speed Control	Brushless ESC
Battery	7.4V 3200mAh LIPO & Charger
Radio System	2.4GHz Radio System

UNIQUE FEATURES

BIG BORE SHOCKS

- ▶ Four big bore oil filled shocks
- ▶ Adjustable independent suspension.
- ▶ Narrow Chassis for better stability.

DEPENDABLE ELECTRONICS

- ▶ LIPO Power right out of the BOX
- ▶ Brushless Electronics Speed Control and Brushless Motor give you the power to need.

HUGE KNOBBY TIRES

- ▶ Aggressive off road knobby tires to push this buggy over and through everything

GROUND POUNDER 1/10 SCALE

Are you ready for Car crushing, dirt slinging, Monster Truck action? Then you're ready for the first 1:10th scale solid-axle RTR RC monster truck to hit the RC market, the Ground Pounder!

Developed, prototyped and tested by Crawford Performance Engineering, the Ground Pounder is truly an RC marvel. With the beautifully styled body, aluminum "tube style" frame, mid motor shaft driven 4WD, solid axles, four link suspension, and aluminum threaded body oil filled coil-over shocks, you won't know whether to display it on a shelf or get it dirty in the yard. This 1:10th scale monster truck was designed to look and perform like the real thing. A powerful brushed 540 electric motor is mounted mid frame, just like the full scale monster trucks, for even weight distribution. 4-mode 4 wheel steering allows you to have control of the front wheels, as well as the rear wheels. Just like a full size monster truck! Quickly cycle through "front steer", "rear steer", "front and rear steer", and "crab steer" modes, just like the full size monster trucks!

SPECIFICATIONS

ITEM	DETAILS
Motor Type	Powerful Brushed 540 Motor
Transmission	FWD and Reverse, 4-Wheel Steering
Drive System	4 Wheel Drive
Length	457mm
Width	336mm
Height	260mm
Wheelbase	317mm
Ground Clearance	2" to 3" (adjustable)
Chassis Type	Anodized Aluminum Tube Style
Shocks	Aluminum Capped Oil Filled Shocks
Speed Control	Brushed ESC
Battery	7.2V 6 Cell Battery with Charger
Radio System	2.4GHz 3 - Channel Radio System

UNIQUE FEATURES

FRAME AND CHASSIS

- ▶ 4 Huge Adjustable Aluminum Capped Oil Filled Shocks.
- ▶ Anodized 6061 Aluminum "tube" style Chassis & Suspension

ELECTRONICS AND STEERING

- ▶ 3 Channel, 2.4GHz Remote Gives Great Control Over 4 Wheel Steering.
- ▶ Mid Motor, Shaft Driven 4WD, Solid Axles, Four Link Suspension

HUGE TIRES

- ▶ Mud Tires to help you push through mud, grime and anything.
- ▶ Tires Mounted to Great Looking Monster Truck Rims.

VOLCANO EXP PRO 1/10 SCALE

Are you ready for an adrenaline explosion? Fast and powerful, the Volcano EXP PRO is equipped with a 3300KV brushless motor and 2s LIPO ready brushless ESC. Ready to run out of the box, the Volcano EXP PRO is eager to heat up the neighborhood. Complete with battery and charger, this mini Mount St. Helens will arrange the landscape in seconds!

Shaft driven 4WD provides you with the necessary traction to maneuver the toughest obstacles and the forward/reverse ESC is beneficial in navigating tight spots.

Lightweight plastic chassis, eight aluminum body oil filled coil over shocks, and independent suspension offer rock solid performance as the soft compound monster truck tires leave disaster in their wake. Fear not! A 2.4GHz radio system and waterproof electronics ensure control, for those who dare to unleash the power of the Volcano!

SPECIFICATIONS

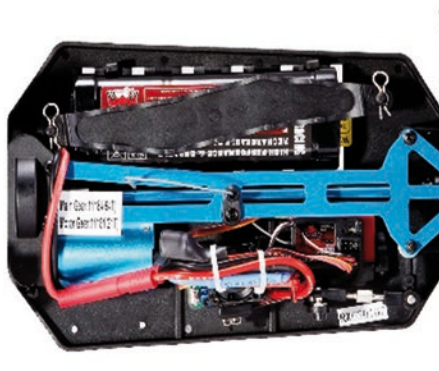

ITEM	DETAILS
Motor Type	Electric Brushless 3300KV RC-540
Transmission	Forward and Reverse
Drive System	4 Wheel Drive
Length	400mm
Width	310mm
Height	185mm
Wheelbase	275mm
Ground Clearance	30mm
Chassis Type	Plastic
Shocks	Aluminum Body Oil Filled Shocks
Speed Control	Brushless ESC (2s LIPO Ready)
Battery	7.2V 2000mAh NiMh & Charger
Radio System	2.4GHz Radio System

UNIQUE FEATURES

SHOCKS

- ▶ 8 Aluminum Body Oil Filled Shocks.
- ▶ Front and Rear Shocks provide great handling and support for those that need a bit more.

WATERPROOF ELECTRONICS

- ▶ Waterproof Electronics give you the peace of mind in knowing the electronics are safe.
- ▶ Robust Motor and Electronics.

HUGE TIRES

- ▶ Unique Rim Designs to give it that curb appeal.
- ▶ Mud Tires to help you push through and over anything.

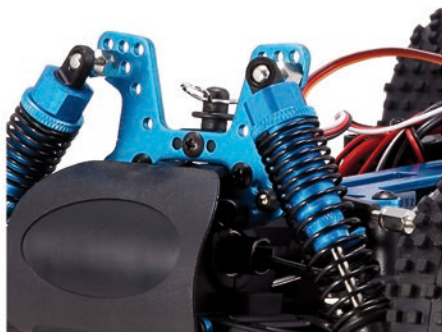

TORNADO EPX PRO 1/10 SCALE

Hang on! The Tornado EPX PRO is about to blow through your neighborhood! Complete with battery and charger, the Tornado EPX PRO 4WD buggy is ready to run. Adjustable suspension provides smooth performance for any terrain, while the adjustable wing creates rear downforce for added traction and high speed stability. A 3300KV brushless 540 Novatech motor and 2s LIPO ready brushless ESC provide the power and precision needed to blow away the competition. The Tornado EPX PRO has many blue anodized aluminum parts including upper chassis plate, race adjustable shock towers, tunable oil filled coil over shocks, and motor can. Not only will the Tornado EPX PRO be tearing up the track or blasting through yards, it'll look good doing it. Shaft driven 4WD provides you with the necessary traction to maneuver the toughest obstacles and the forward/reverse ESC is beneficial in navigating tight spots. Grab a hold of a Tornado and pull the trigger, if you can see through the debris!

ROCKSLIDE RS10 XT 1/10 SCALE

Get ready for the rock crunching, boulder stomping, stone slamming Rockslide RS10, 1/10th scale rock crawler! Challenge the laws of gravity with one of the most popular vehicles in the Redcat lineup, the ready-to-run Rockslide RS10 rock crawler. Complete with front & rear multi-link suspension, front and rear transmission, two high-torque electric brushed motors, crawler specific ESC, and multi-select 4 wheel steering, the Rockslide RS10 is ready to climb. Stop guessing how much brake to apply to stay on that slope! With the Rockslide RS10's crawler specific electronic speed controller, It applies the brake for you with exactly enough force to keep the Rockslide still, even on the toughest climbs. 4-mode 4 wheel steering is easily accessible with the touch of a button. Switch steering modes on-the-fly for front wheel steering, rear wheel steering, four wheel steering, and four wheel crab steering. Steer your way through all obstacles with quick mode, on-the-fly steering!

SPECIFICATIONS

ITEM	DETAILS
Motor Type	Dual Electric Brushed 70T 390
Transmission	FWD & REV with 4-Wheel Steering
Drive System	4 Wheel Drive
Length	445mm
Width	268mm
Height	148mm
Wheelbase	315mm
Ground Clearance	60mm
Chassis Type	Aluminum
Shocks	Aluminum Capped Oil Filled Shocks
Speed Control	Crawler Type Auto Hill Braking
Battery	7.2V 1800mAh NiMh & Charger
Radio System	3 Channel, 2.4GHz Radio System

UNIQUE FEATURES

CHASSIS

- ▶ Battery mounted low on chassis for better balance & performance.
- ▶ ESC provides braking when not in motion to maintain better control.

LINKAGE AND STEERING

- ▶ Front and Rear multi link suspension, front and rear transmission.
- ▶ Two high-torque motors, crawler specific ESC and 4 wheel steering.

HUGE TIRES

- ▶ Weighted Bead Lock Rims keep tires firmly placed on the ground.
- ▶ Aggressive Bead Lock Rock Crawling Tires.

SANDSTORM BAJA 1/10 SCALE

Much engineering and preparation must be taken if a vehicle is to survive the treacherous Baja. A place where water is scarce and memories are plentiful. A place where you can reach the limits of any vehicle. A place where engines roar and dust flies. Where vehicles fly by and spectators are left standing in a sandstorm of what just was. Are you tough enough to endure the sandstorm? This Sandstorm is a bit less treacherous but beware, you may still end up with dirt in your teeth. Aggressive styling, hinged roll cage, and realistic cockpit, complete with driver and navigator, add realism to the Sandstorm Baja buggy. The lightweight plastic chassis is durable and holds the electric brushed motor with cooling fins, electronic speed controller, 2.4GHz receiver, and included rechargeable battery pack. Aluminum capped oil filled shock and adjustable upper suspension arms empower drivers to tune the Sandstorm to their driving styles. The 4WD Sandstorm buggy is a great vehicle for those venturing into hobby-grade RC or those wanting to start their own Baja.

SPECIFICATIONS

ITEM	DETAILS
Motor Type	Electric Brushed
Transmission	Forward and Reverse
Drive System	4 Wheel Drive
Length	400mm
Width	270mm
Height	165mm
Wheelbase	275mm
Ground Clearance	20mm
Chassis Type	Plastic
Shocks	Aluminum Capped Oil Filled Shocks
Speed Control	Brushed ESC
Battery	7.2V 2000mAh NiMh & Charger
Radio System	2.4GHz Radio System

UNIQUE FEATURES

SHOCKS

- ▶ 4 Aluminum Capped Oil Filled Shocks.
- ▶ Adjustable upper suspension arms to tune to your driving style.

ROBUST ELECTRONICS

- ▶ Powerful Brushed Motor and ESC.
- ▶ Robust Motor and Electronics equipped with a cooling fan to help keep the motor running cool.

ATTENTION TO DETAIL

- ▶ Not only does this Baja have resemble the real version, it also comes equipped with a realistic Driver and Navigator.

TERREMOTO 1/8 SCALE

Our biggest and baddest 1/8 scale vehicle to date, the Terremoto is ready to shake down anything in its path. With a wheel base of 15" and just under 2 feet in length, the Terremoto is HUGE!

Unlike many similar monster trucks, the Terremoto was built to perform. With huge bore oil filled shocks, adjustable suspension, and 3 differentials, the Terremoto will cause havoc on any surface. DO YOU LIKE POWER? The Terremoto is equipped with a 2260KV brushless motor and 80A waterproof ESC. Go with authority! The Terremoto uses 2 15KG waterproof metal gear steering servos to command its 6.5" monster truck tires and functional bead lock rims. Just another feature that sets the Terremoto in a class of its own. The Terremoto is fully assembled with its incredibly powerful 2260KV brushless motor, 80A waterproof ESC, dual 15KG waterproof metal gear steering servos, dual 7.4V 3200 mAh rechargeable LiPo battery packs, battery charger, 2.4GHz radio, and awesome looking polycarbonate body. Pick up a Terremoto and shake up your town today!

SPECIFICATIONS

ITEM	DETAILS
Motor Type	Electric Brushless KV 2260
Transmission	Forward and Reverse
Drive System	4 Wheel Drive
Length	550mm
Width	460mm
Height	240mm (without body)
Wheelbase	376mm
Ground Clearance	96mm (adjustable)
Chassis Type	Plastic
Shocks	Adjustable Aluminum Body Oil Filled
Speed Control	80A Waterproof ESC
Battery	2X 7.4V 3200mAh 20c LIPO, Charger
Radio System	2.4GHz Radio System

UNIQUE FEATURES

HUGE STANCE

- ▶ 4 Huge Adjustable Aluminum Body Oil Filled Shocks.
- ▶ Huge - Wide Stance
- ▶ 3 differentials

WATERPROOF ELECTRONICS

- ▶ Waterproof Electronics give you the peace of mind in knowing the electronics are safe.
- ▶ Robust Motor and Electronics.

HUGE TIRES

- ▶ Unique Rim & Functional Bead Lock Design to give it that curb appeal.
- ▶ 6.5" Mud Tires to help you push through mud, grime and anything.

RAMPAGE MT V3 1/5 SCALE

The gigantic Rampage MT is the monster truck of all monster trucks. Ready to crush cars and scale mountain sides, the Rampage MT will tear it up!

Huge monster truck tires mounted on 7" bead-lock rims will crush all in their path. The T6 aluminum chassis, beefy adjustable suspension, and metal gears are all part of this monster's durability.

A powerful 30cc gasoline 2-stroke engine launches the Rampage MT into action, while dual 1/5 scale steering servos ensure control. The 700cc gas tank allows for long run times and rechargeable receiver pack makes prep time easy. All that's left now is, deciding what to crush first!

SPECIFICATIONS

ITEM	DETAILS
Motor Type	Gas 30cc HY 2 Stroke Engine
Transmission	Single Speed
Drive System	4 Wheel Drive
Length	740mm
Width	600mm
Height	350mm
Wheelbase	516mm
Ground Clearance	72mm
Chassis Type	4mm Aluminum 6061-T6
Shocks	Adjustable Aluminum Body Oil Filled
Fuel Tank Capacity	700cc
Drake Type	Dual Disc Brakes
Radio System	2.4GHz Radio System

UNIQUE FEATURES

HUGE STANCE

- ▶ 4 Huge Adjustable Aluminum Body Oil Filled Shocks.
- ▶ Huge - Wide Stance
- ▶ Aluminum Frame

POWERFUL GAS ENGINE

- ▶ Gas 30cc HY 2 Stroke Engine
- ▶ Single Speed Transmission, Metal Gears and 4-Wheel Drive
- ▶ 700cc Fuel Tank Capacity

HUGE TIRES

- ▶ Unique Rim & Functional Bead Lock Design to give it that curb appeal.
- ▶ 7" Mud Tires to help you push through mud, grime and everything.

Motor Type	Brushless XXD 2212KV 1400 Motor
Drive System	Steerable Front Wheel
Length	780mm
Wingspan	980mm
Flying Weight	560g (19.8oz)
Speed Control	Brushless ESC - AT-30A
Battery	11.1V 1000mAh 3S & Charger
Radio Control Range	1000m (3000ft)
Radio System	2.4GHz Radio System
Launch	Launch From Ground or Hand

SKYARTEC CESSNA 182 1/10 SCALE

Hang on! Cessna Brushless LCD 2.4GHz with 3G3X Technology is a totally new experience in flight capability and satisfaction from an amazing aircraft that doesn't need any more time to be free controlled. With the 3G3X system, this CESSNA is more powerful function. CESSNA adopts the advanced 3-Axis system, coming with 4 servos and installed server and steering lever. Its every progress is considered for customers, what's more, the airplane use EPO fuselage technique, which making the surface so smooth that protect convoys for power system.

UNIQUE FEATURES

WORKING FLAPS

- ▶ Adjustable - Controllable Flaps through Radio Control.
- ▶ Gives pilot real feel and control over landings.

STABILITY CONTROL

- ▶ Adjustable AP302 3-Axis Gyro System.
- ▶ Easily adjust the stability control to your skill level.

STEERABLE FRONT WHEEL

- ▶ Steering linkage is tied to tail so limits parts and servos.
- ▶ Easily manoeuvre on ground, taxi to and from runway.

SKYARTEC 250 WASP-X3V

The Skyartec Wasp X3V is a high-specification RTF or receiver-ready, 250-class radio controlled electric helicopter designed for the RC Helicopter enthusiast. This WASP is one of the most advanced in its helicopter line, the fully aerobatic Wasp X3V is one of the first RTF helicopters in this size and price range to incorporate three-axis flybarless technology. It also incorporates a belt-driven tail in lieu of the motor-driven tail prevalent among 250-class helicopters. Construction is of CNC-milled aluminum, fiberglass, alloys and composites. The polycarbonate canopy is a slightly modified carryover of the one fitted to the Wasp X3V. This upgraded model comes equipped with Skyartec's NASA701 seven-channel transmitter with a six-channel SKY-X303V three-axis flybarless compatible receiver. The NASA system allows setting of such parameters as exponential and dual rates via a menu-driven LCD screen.

Training skids, a padded aluminum carrying case and high-performance blades are available as options.

UNIQUE FEATURES

LIGHT WEIGHT MATERIAL

- ▶ CNC-milled Aluminum, Fiberglass, Alloys and Composite Materials.
- ▶ To finish of this great looking helicopter is a polycarbonate canopy.

STABILITY CONTROL

- ▶ SKY-X303V 3-axis stability system with flybarless technology.
- ▶ Adjustable for MAX stability and near hands-free hover.

BELT DRIVEN TAIL

- ▶ Belt driven tail gives the fast response from the Radio Control.
- ▶ Not typically found in 250 class helicopters but is unique to ours.
