

## CALDERA XB 10E 1/10 SCALE

Get ready for dune leaping, hill climbing, dirt flying action!

The 4WD Caldera XB 10E brushless buggy is equipped with a powerful brushless motor, 3200mAh LIPO battery, brushless

ESC, and is ready to scream through the woods, track, or yard. Ready to run, the included rechargeable battery and charger are easy to use and provide dependable fun. A durable plastic lightweight lower chassis, coupled with an aluminum upper chassis plate, provide a sturdy foundation for the Caldera XB 10E's power and performance.

Aggressive off road knobby tires, 4WD drive train, and large rear wing provide great traction and looks.

A narrow chassis offers stability, while four big bore oil filled shocks and adjustable independent suspension offer rock solid performance. A 2.4GHz radio system ensures control, for those ready to unleash the MAGMA-tude of the Caldera XB 10E electric brushless buggy!
